While at Park City last Sunday, the writer had a talk with W. T. Bliss regarding the recently patented air-brake appliances of George N. Kingston of this city. Mr. Bliss had been inspecting the patent papers and he observed that the patent is one of the finest things that could be gotten up for that purpose. He also showed it to a prominent railroad man, who was very much taken up with it and thought it was just the thing.

We have received missionary letters from Elders John P. Skene of Housar and Edward Powell of Upton, both of whom are laboring in Australia. We will probably print them next week.

The Stake Sunday school authorities assure us that the convention on Sunday will be a fine success, and that everybody will be benefited by attending. Elders J. W. Sumnerbays, George D. Pyper and Henry Patterson will be the visitors from Salt Lake.

The Times office has been sick this week, suffering from a very severe attack of grippe. As a result we were not able to attend to our work but very little, and the paper this week does not contain much local news. We hope our readers will bear with us this time, and trust that such will not occur again in the future.

We forgot last week to mention the party given here on Widow's Day. It was purely an oversight on our part. The day was well observed here. Every widow and everybody in need were supplied with wood, coal and various other articles. In the evening at the Academy building a most delicious banquet was served after which a fine program was carried out, consisting of songs, speeches etc., and everybody present had a good time.

"Last winter an infant child of mine had a cough in a violent form," says Elder John W. Rogers, a Christian Evangelist, of Elletts, Mo. "I gave her a few doses of Chamberlain's Cough Remedy and in a short time all danger was past and the child recovered." This remedy cures croup, but when given as soon as the first symptoms appear, will prevent the attack. It contains no opium or other harmful substance and may be given as confidently to a babe as to an adult. For sale by John Hayden & Son, Druggists.

A writer in Kansas City Star, who evidently never lived in Utah, writes as follows on a delicate subject. "The suffrage question is a delicate one to handle, but it seems to me that if by giving young workmen a chance of holding themselves comfortably and respectably when they first become self-supporting you prevent them from getting married to girls as young as themselves and acquiring a universal habit of laziness before they are well out of their teens, far more good harm is likely to result in the long run from this operation. Young men of the middle class at the present day rarely marry under thirty, many of them not till they are well past that age. So far as I can see, neither they nor society are the worse for deferring their nuptials. The lower you go in the social scale, the stronger are the reasons against marrying young."
